HAMILTON LIFE

VOLUME XXXIV — HAMILTON COLLEGE, CLINTON, N. Y., TUESDAY, MAY 3, 1932 — NUMBER 23

TENNIS TEAM LOSES TWICE 4-2 ON ROAD

Southern Net Men Are Too Powerful for Hamiltonians

MURPHY IS WINNER

Star Takes Doubles and Singles to Win Four Matches

SWARTHMORE STRONG

Forces Murphy and Kelsey to Three Set Victory in First Contest

Although losing both of its opening matches, the Buff and Blue tennis team showed signs of future strength in holding the powerful Haverford and Swarthmore net men to 4-2 victories in contests played Friday and Saturday in southern Pennsylvania. Murphy, men's singles champion of both New York and New Jersey states, won two singles victories and teamed with Kelsey in two doubles matches to account for the four wins that the Hill squad was able to produce.

At Haverford Friday afternoon the Hamilton team appeared to be headed for a victory in the season's opener when Murphy smashed out a straight victory over Ferris, Haverford, 6-0, 6-2. Defeats suffered by Capt. Kelsey, Young, and Schleit brought the score to 3-1 for Haverford at the completion of singles competition. All of these matches were won by the Scarlet and Black in straight sets.

Murphy, paired with Kelsey, defeated Ferris and Roberts, Haverford, in the first doubles match 6-3, 6-2 to bring the score up to 3-2, but Haverford won the match when Flaccus and Monsarrat scored over Young and Schleit 6-1, 6-4.

One victory in the singles and another in the doubles were the best that the Buff and Blue racqueteers could do as they suffered a 4-2 setback at the hands of Swarthmore College Saturday. Perfect weather conditions failed to aid the Hamilton team in search of its first victory of the season.

Miss Tie by Narrow Margin

Murphy again got the Hill team off to a good start by winning a straight set victory over Lynn, Swarthmore ace, 6-2, 6-1 in the opening match. Kelsey, Young, and Schleit were unable to produce a victory in the singles, although the matches were harder fought than the contests at Haverford. Capt. Kelsey forced Rudy, Swarthmore, to a 7-5 score in the second set before he lost the verdict.

With a chance to tie by winning the two doubles matches Murphy teamed with Kelsey to defeat Lynn and Hadley, Swarthmore, after dropping the first set, 2-6, 6-2, 6-3. Both Murphy and Kelsey played splendid tennis to earn a hard-fought victory over the Pennsylvanians. However, Young and Schleit were unable to garner the win needed to tie the match, losing to Lutton and Rudy, 6-4, 6-1.

Displaying brilliant form throughout the trip, Murphy seems to be in a condition that bodes ill for future opponents. Colgate and Syracuse within four days of each other should give the Utican stern opposition.

Dry Movement Head To Address Class

D. Leigh Colvin, for sixteen yars president of the Intercollegiate Prohibition Associaton, will speak on the "Ethical Aspects of Prohibition" before the class in Ethics 6, on Thursday afternoon at 2:30 in the Biology-Geology Building. Mr. Colvin, who received his Ph.D. degree from Columbia, is an author, speaker and authority on the history of prohibition in America.

There will be a question period in which wider aspects of the topic are to be raised. All interested are welcome.

Final Date Set for Elective Schedules

May 18 has been set as the date for the final entrance of elective courses for next year. Proper cards may be obtained from the President's office and should be returned there after they have been filled in. The sophomores are reminded that they are to indicate the subjects in which they wish to major.

The Committee on Schedules and Studies are requesting that freshmen and those not familiar with the manner in which the electives are submitted, acquaint themselves with the rules in the handbook, so that unnecessary errors may be avoided. After submission, the choice of studies may not be changed except by permission of the faculty and the payment of a fine.

Several days prior to May 18, the committee will post in the Library regulations governing the choosing off courses, together with the courses offered next year and the hours which they shall be given. Attention is called to those courses which alternate from year to year and the two new courses offered for the first time last year, French 6B and History 13-14.

Pritchard Places in Penn Steeplechase As Old Record Falls

Hill Captain Qualifies for Eastern Olympic Semi-Final Trials

Finishing third in the 3,000 meter steeplechase at the Penn Relays in Philadelphia on Friday, Walter H. Pritchard, captain of Hamilton's track team, qualified for the eastern semi-finals of the 1932 Olympics, to be held at either Chicago or Boston on July 1. Pritchard finished behind Joe McCluskey of Fordham, and J. C. Watson, of the University of Indiana.

McCluskey's time of 9:28.6 not only wiped out his own best previous mark of 9:37, made in last year's carnival, but came close to the unofficial world record of 9:21 4-5 set by the Finnish runner, Loukola, at the 1928 Olympic games.

It was against such runners as McCluskey and Watson that Pritchard had to compete in his first steeplechase. McCluskey finished one hundred yards ahead of Pritchard, who was forty yards behind J. C. Watson of Indiana. Pritchard's time was 9:44.5, approximately sixteen seconds behind the winner's mark, and seven and a half behind last year's record.

Pritchard was up with the leaders from the beginning, and was never farther back than in third place. At the 1500 meter mark, half way around the course, he led for a time, but on the seventh lap, Watson and McCluskey began a little race of their own, which continued until the end of the event.

McCluskey seemed destined to take a most unexpected setback at the hands of Watson. He led the first lap, fell at a hurdle the second time around, and came up in fourth place, behind Watson, Pritchard, and Ryan, of Manhattan, who finally ended up in fourth. At the mile, McCluskey regained the lead, but then Watson and Pritchard started a race, and for a time the Hamilton representative was in front.

McCluskey was thirty yards back with two laps to go, and apparently well beaten by the strong running Hoosier. He closed in on the seventh lap, but was still ten yards short with a lap to go. He caught Watson on the last turn.

It was still close at the water jump 100 yards from the tape. McCluskey swept up and over, but Watson, suddenly very tired, could not make it. He had to try twice, and McCluskey rushed down the stretch to a fifty-yard lead and a new record. A few seconds behind Watson came Pritchard, and then J. Ryan, of Manhattan, who finished third last year. Rhodes, Columbia star, fourth last season, was left out of the running early in the race.

BUFF AND BLUE INAUGURATES OUTDOOR TRACK SEASON WITH DECISIVE VICTORY OVER R.P.I.

Victory in Mile Medley Relay Brings Hamilton Triumph as Meet Closes; Pritchard Wins Mile and Two-Mile After Penn Steeplechase

Completely surpassing all expectations and even the most optimistic of predictions, the Hamilton track team, by defeating R. P. I. at Troy by a 70 1-3—60 2-3 score on Saturday afternoon gave promise of an undefeated season and another Conference championship.

The final result of the meet hinged on the outcome of the mile medley relay, which the Buff and Blue took handily. Sprague, who won the 440, got off to a good start and had about a 3-yard lead on Billard when he came out of the first turn. By the time he passed the baton to Ruland at the end of the quarter, he had about a 10-yard edge. Ruland stretched it to nearly 20 on his furlong, but a poor pass to Bull, Hamilton's other 220 man, cut the lead down to about 10 yards, when Campbell started off for the final half mile. He kept gaining on Smith, Tech anchor man, the whole way, having a 20-yard margin at the end of the first quarter and more than 25 at the finish. Campbell was clocked at 2:09 for his 880.

Takes Nine Firsts

First place in this event made the meet score 68 1-3—43 2-3, so that even a clean sweep in the broad jump, the only event not completed at that time, could not give a victory to the Red team. Had R.P.I. won the relay, however, the final score would have been 65 2-4—65 1-3 in favor of the Engineers.

Coach Winters' men took firsts in nine of the fifteen events, including three of the field events, in which Hamilton was supposedly weak. Second places were split with 6 for each team, except that R.P.I. gained 1 1-3 points in ties for second and third.

Pritchard Double Winner

In the shot put, Panzarella, of R.P.I., broke both the meet and college records on each of his first two throws, getting distances of 44 feet 2½ inches and 45 feet 1¼ inches. Maynard Jones' heave of 42 feet, 8¼ inches established a new Hamilton record and netted him second place.

Pritchard, taking it easy after running in the steeplechase at the Penn Relays the day before, won both the mile and two-mile runs easily, trailed both times by Hamilton men. Campbell finished a good second in the mile, timed at 4:50, while Bliss, after dogging Bates until after the seventh lap of the two-mile, came ahead to score another three points.

A sensational sprint at the end of the quarter mile by Billard robbed the Buff and Blue of what seemed might be the only clean sweep of the meet. On the last turn Bellatty started coming up on White, who was second only to Sprague at that point, and then Billard came on from behind to pass both White and Bellatty and even to threaten Sprague for the lead.

Billard came back in the 220 to take first place from Ruland, Hamilton sprint star, who had won the 100-yard dash handily. Perlenfein finished behind Ruland in both these events.

Denman and Olszewski, coming up on the leaders as they went in-

(Continued on Page Three)

Track Team Opposes Rochester Second Time This Season

Squad Meets Yellow Jackets on River Campus on Saturday

The Buff and Blue track team, fresh from an unexpected victory over R.P.I., is hard at work preparing for its second meet of the year against the University of Rochester on Saturday, May 6. In defeating Rensselaer, 70 1-3 to 60 2-3, on last Saturday, the Continental squad showed surprising strength in its first outdoor meet of the season, taking nine first places in the fifteen events.

Led by Captain Pritchard, who made a remarkable showing by taking third place in the 3,000 meter steeplechase in the Penn relays, the Buff and Blue squad showed signs of developing in the well-rounded type of aggregation which has earned the Little Ten Conference championship for Hamilton for the past two years.

When Hamilton journeys to Rochester this week-end it will be the second meeting of the two track teams, Hamilton having previously met and defeated the Rochester men, 64-40, in an indoor meet staged at the River Campus Field House on March 25. In this meet, which was the first of the year, Hamilton displayed marked superiority by taking eight first places out of eleven events. In addition, a special relay event was also won by the Buff and Blue. Against Rochester, the team was a noticeable improvement over the squad of last year, whose particular weakness was in the field events. A big improvement is noted in this department, with Hamilton capturing all three places in the high-jump and first and second places in the shot put and pole vault, scoring all but two points in these events.

Six Seniors Receive Prize Speaking Honors

In an announcement to the student body of the College after Chapel exercises Thursday morning, President Ferry divulged the names of the five Clark Prize appointees and the winner of the Kirkland Prize oration. Sidney S. Glazer '32, Edward G. Hooks '32, Jack W. Hummer '32, William Sloane '32, and Benjamin J. Stone '32 have been selected to participate in the Clark Prize Exhibition Saturday evening of Commencement Week.

Glazer will discuss "Tariff Walls and World Peace" and Hooks will deliver an oration on the subject "The Repeal of the Eighteenth Amendment." The subject of Hummer's talk will be "Baron von Steuben", while Sloane will describe the activities of "Ramsay MacDonald in English Politics." Stone will speak on the subject of "Red Civilization."

Glazer was also chosen as the winner of the Kirkland Prize Oration for which there was no prize given last year. He will discuss "The Naturalization of Israel in Palestine." No award was made for the Head Prize Oration.

BASEBALL TEAM DROPS OPENING GAMES IN EAST

Loses to Amherst, 7-0, Friday and Wesleyan, 22-6, Saturday

ERRORS HELP WESLEYAN

Hamilton's baseball team started its season with losses to both Amherst and Wesleyan on a trip to New England Friday and Saturday. The game with Amherst on Friday afternoon, which showed both teams in good form, the Lord Jeffs won 7-0, but the inexperienced Hamilton team cracked completely Saturday afternoon, making a total of 13 errors when it lost by the overwhelming score of 22-6.

Comparison of the scores would seem to indicate that Wesleyan had the superior team, but the Lord Jeffs actually displayed a better brand of ball, scoring their seven runs on only eight hits and holding the Buff and Blue to three hits, one of which was for extra bases.

Amherst Plays Clever Ball

Douglass did the mound work for Hamilton against Amherst, and showed good form for so early in the season. He was given excellent support by the whole team in spite of the fact that it was the first game played and that two days of infield practice constituted the only outdoor workouts that the Hillmen had had except for batting practice.

Amherst displayed a good type of ball, clever base-stealing and hit and run plays helping to score the men who got on. Thompson's pitching, backed up by faultless

ELIHU ROOT PRESIDES OVER SPRING MEETING OF BOARD OF TRUSTEES SATURDAY MORNING

At Trustees' Meeting

Hon. Elihu Root, '64

Receives Assignments Of Four New Men To Faculty

HONOR CAMPBELL

Hill Senior Awarded Root Fellowship for Next Year

ARNOLD OFFERS GIFTS

Alumnus Donates Collections for Geology-Biology Museum

Hon. Elihu Root, '64, presided over the spring meeting of the Board of Trustees Saturday morning, at which four new men were appointed to the faculty, effective next fall.

Dr. George Harvey Cameron, who has gained considerable reputation in scientific circles for the work which he and Dr. Robert A. Millikan have done on the cosmic rays, will come to Hamilton next year as associate professor of physics and head of the department to replace Professor Samuel J. Saunders, retiring after forty years of service.

Collaborates in Three Articles

Dr. Cameron received his Bachelor of Science degree from the University of Saskatchewan in 1922, and his Ph.D. degree from the California Institute of Technology in 1926. He was assistant teaching fellow at the University of California for four years prior to 1926, and was research associate at the same institution until 1928. Since that time he has been a physicist at the Du Pont Experimental Station, Wilmington, Delaware. He obtained the Ph.D. degree as the result of his work on the cosmic rays with Professor Millikan.

Dr. Cameron published three articles in conjunction with Professor Millikan in 1928. Their foremost work appeared in the June 1928 issue of the periodical of the National Academy of Science, and was titled: "Evidence for the con-

(Continued on Page Four)

Hill Nine Will Meet Rochester in Third Road Game of Season

Henigen, Yellow Jacket Ace, Expected to Bother Hamilton Batters

Hamilton's varsity nine will make its second trip of the season Saturday when it travels to Rochester to face the strong University of Rochester outfit on Saturday. The Continentals' first trip of the season was that just passed in which the nines of Amherst and Wesleyan were encountered.

In its first game of the season, the Rochester team severely trounced Syracuse University by the score of 7-3. Rochester has many good men left over from last year, but the new material has developed so fast that many of the good men of last year are not used. Among the most prominent of Rochester's new men is Henigen, a sophomore pitcher. Although he has not pitched college ball before, his work so far this season gives evidence of strong pitching that the Hill team will have to face.

Any change in the Buff and Blue line-up is perhaps unlikely because the lack of practice has not enabled the team to hit its full stride as yet. The games of last week-end showed that Hamilton was weak with the stick, but that can soon be overcome by more practice. It is hoped that the heavy hitters of last year will reach and surpass their former standard.

Last year Rochester defeated the Hill nine by a 6-3 score, the game being called at the end of the fifth inning on account of rain. The game was marked by heavy hitting by both teams. Three home runs together with a three base hit and six singles, made a total of ten hits, five to each team.

SCHILZ ELECTED EDITOR OF "LIT"

Foremost Junior Contributor Chosen to Head Literary Magazine

At a special meeting of Pi Delta Epsilon Monday, Herman F. Schilz, '33, was elected editor of the "Hamilton Literary Magazine" for the year 1932-33. In this office Schilz succeeds Willam Sloane, 32, retiring editor.

Competition for the editorship of the "Literary Magazine" has extended throughout the past year, engaging three competitors, C. Lafayette Todd, '33, Wheaton Webb, '33, and Schilz. The candidates were judged by the amount of material published, technical ability, and critical acumen.

Schilz has been connected with the "Hamilton Literary Magazine" for the past two years. He was a member of the reportorial staff of **Hamilton Life**, and was awarded the Hawley Prize in Latin.

Resolution Adopted by Board of Trustees on Death of James Glass

The Board of Trustees drew up the following resolution at their meeting on Saturday:

Resolved: That the Board of Trustees record at this time its grateful appreciation of James Henderson Glass whose death came last summer. He had sat with us as a member of the Board for ten years.

His part as the leading surgeon of Central New York through a long period had been performed with great distinction. He combined skill with so much of human kindness that he won not only gratitude but lasting affection from the great multitude to whom he brought health. The higher offices which it was within the power of his fellow-surgeons to bestow were all his, and he filled them with efficiency and marked modesty.

Here, as a Trustee, he applied his mature experience to the problems of the College in like spirit. The small beginnings of the Infirmary were made to develop under his leadership into the institution which now performs its important function with great effectiveness. It will long continue to bear witness to his devotion to the welfare of youth.

We who came to know Dr. Glass as an associate and friend will always cherish his memory. He seemed to us no more distinguished for his outstanding ability than for the charm of his personal character.

Our warmest sympathy goes out to her who had shared his life so fully through the many years.

April 30. 1932.

ANNOUNCEMENTS OF SENIOR PLANS SHOW MANY ARE UNCERTAIN OF JOBS AS RESULT OF THE DEPRESSION; POST-GRADUATE SCHOOLS ATTRACT THIRTY-EIGHT

Law, Medicine, and Teaching Remain Leading Professions to Be Followed by Prospective Graduates; Large Portion of Class of 1932 Undecided on Plans for Future Following Graduation; Increase Seen in Post-Graduate Work

Following in the footsteps of former classes, this year's seniors continue Hamilton's reputation as a pre-professional school with nearly half of its members planning to enter graduate school. Announcements of plans for the coming year show that thirty-eight of the sixty-eight men interviewed intend to enter upon post-graduate work following graduation.

Law, medicine, and teaching continue to attract the largest number of those entering professional work, with law taking fourteen; medicine, ten; and teaching, seven. Law returns to first place this year for the first time since 1929, when fifteen menbers of the class entered law school, while teaching drops from first place in 1930, when twelve men took it up, to third this year.

Other courses to be pursued in graduate school include scientific research, foreign service, theology, business, and finance. Four seniors will study business, two will do scientific work, and three will study theology, journalism, and foreign service, respectively. Of the entire class, only two plan to enter the ministry and two to go into journalism.

Harvard graduate schools will claim the largest number from the class, with ten planning to enter the various professional schools. Four will go to law school, three will enter medicine, two business, and one will study English Literature and languages. Albany Law School and Columbia graduate schools follow with four men apiece, Princeton, Yale, Fordham, and Rochester with two each, and Johns Hopkins, Cornell, Oxford, and others with one.

Due to the scarcity of openings in business this year, the number of those who are undecided shows a marked increase over that of former years. Men who are sure of positions in the business world number but four, with but another half dozen having any definite positions in view. Those who went job-hunting during the Spring Recess report little success.

Of the twenty-six seniors who have no definite plans, nine stated that they were undecided, and seventeen will be looking for jobs in business houses. The uncertainty of employment in the "cold, cold world" has led many of them to look to teaching without a doctor's degree, in primary and preparatory schools.

TUESDAY, MAY 3, 1932

EXAMS ARE COMING

It was our contention expressed shortly, perhaps too shortly, before the close of the first semester, that there should be a sort of holiday period before examinations to give those whose finals are crowded into the first few days of the period an opportunity equal to that of those who are more fortunate with their schedules. Inasmuch as no distinction is made in the final marking between those who have had ample time for preparation and those who have not, it seems only fair to give everybody plenty of time.

On account of the fact that Decoration Day, a regular holiday, comes this year on the Monday on which examinations would ordinarily have to begin, the first day's examinations have been scheduled for the previous Saturday. This changes the situation to the advantage of some and the disadvantage of others. Those with several finals on Tuesday or Wednesday are especially fortunate, as they will have two extra days in which to prepare for them.

The men unlucky enough to have examinations on the first day, however, will have especial cause for indignation. Their Saturday afternoon and Sunday have been taken away from them. If it would be possible to allow such men the special privilige of not going to classes on Friday, the difficulties would be completely remedied. Besides the seven extra hours on Frday, they would also have Thursday night in addition to the time they would otherwise have to study.

The extra time for everybody which was urged in January would be unnecessary now, as the double holiday Sunday and Monday ought to be sufficient even for those who have all their examinations on the first three days, if Friday absences were legalized.

ALUMNUS LEADS CHAPEL SERVICE

Rev. R. Hawley Fitch, '23, Preaches First Time from Hill Pulpit

"Man is a creature through whom beauty, music, and God himself comes to human beings", stated the Rev. R. Hawley Fitch, '23, in Chapel Sunday morning in answer to his query, "What is Man?" This is the first time that Mr. Fitch, who has a church n New Haven, Conn., has preached from the Chapel pulpit.

"Life is continually asking the question, 'What is Man' ", stated Mr. Fitch. "When you see a man living foolishly, and equally when you see a man living heroically and bravely, you ask yourself this question. It arises from two thoughts: first, the insignificance of man when compared to the vastness of nature, and, secondly, the peculiar relation of man with God, which man alone has."

Rev. Fitch went on to say that many definitions of man have been made. Some are physiological and others psychological. We are all a part of each other, living together, and each depending on the other. He said that "man seems to be one who is able to climb the heights and free that which is beautiful and significant, as did Michelangelo. Other men, such as Bach, have lifted whole audiences out of themselves by the music whch has run through their souls.

Rev. Fitch stated, "Although these men are geniuses, in each of us there is the possibility of becoming something of significance and worth. This opportunity comes through contact with other human beings as we realize what they need and what we can do to alleviate that need."

FRESHMEN DEBATE ILION HIGH SCHOOL

Argue Negative of Compulsory Insurance Question Wednesday

Wednesday evening the Freshman debate team argued the negative of the question, "Resolved, That a system of compulsory unemployment insurance should be adopted by the several states" against an Ilion High School team, at Ilion, in a no-decision contest.

John Handy, the first Hamilton speaker, pointed out that unemployment insurance was an essentially impracticable plan, since no sound actuarial or statistical basis could ever be established for it, and because the basic principle of unemployment insurance was a direct reversal of the principle of insurance in normal fields. The second speaker, J. L. Brown, carried on this line of reasoning, by setting forth the varous evils, social and economic which would inevitably accompany unemployment insurance if the impracticable scheme were put into operation. The affirmative urged the adoption of unemployment insurance, stressing the necessity of such a plan because it would be better than existing means of unemployment relief.

The next debate in which the Freshman will participate is a contest with Utica Free Academy, which will be held in Utica on the evening of May 6. The proposition to be discussed is "Resolved, That British India should be granted immediate Home Rule."

It was through Charles W. MacLean, '27, who is teaching at Ilion High School that last week's debate was arranged. When at Hamilton he was a member of Theta Delta Chi and of Pentagon.

Samuel A. Beardsley, Corporation Counsel, Heart Attack Victim

Alumnus, Public Utilities Attorney, Succumbs in New York City

Samuel Arthur Beardsley, former attorney for the New York Edison Company and other public utilities, a graduate of the Hamilton College Law School in 1879, died of heart disease at his home in New York City on April 28. He was seventy-five years old. His second wife, the former Lillian Valerie Ella Walpole-Moore, whom he married in London in 1927, and two sons, Thomas and Sherman, survive. Funeral services were held Saturday in Utica, where he was born.

Mr. Beardsley was to have sailed on Saturday with his wife to pass the summer at their home at Fontainebleau, France, where they had been going for many years.

After being graduated from Hamilton, Mr. Beardsley practiced corporation law in Utica until 1897. From 1886 to 1892, however, he served as city judge of Utica, and from 1892 to 1896 he was chairman of the State Board of Railroad Commissioners. During this period he served at various times as chairman of the Democratic committee of Oneida County and secretary of the State Democratic Committee. In 1904, 1908, and 1912 he was a delegate to the Democratic National Convention.

In 1898 Mr. Beardsley opened an office in New York as head of the firm of Beardsley and Hemmens, later Beardsley, Hemmens and Taylor. He had charge of the incorporation of the New York Gas and Electric Light, Heat and Power Company, now the New York Edison Company, which took over all the electric light companies of New York, and served as attorney for the Edison Company, the Consolidated Subway Company and other electrical companies. He was a director of the Consolidated Telegraph and Electrical Company.

He administered the estate of the late Anthony N. Brady, former president of the Edison Company. He was a member of the American Bar Association, the bar associations of New York State, Oneida County, and the City of New York, and the Academy of Political Science. He was a Mason and a member of the Fort Schuyler, Utica, Maidstone, East Hampton and Manhattan Clubs.

In the last few years he has maintained an office under his own name at 64 Wall Street, New York.

Freshmen Begin Early Work in Spring Sports

With quite a large number of candidates trying out for positions, the freshmen spring sports teams are swinging well under way. Due to unfavorable weather conditions which have hampered the varsity teams as well as the yearlings, fewer practices have been held than expected, but the coaches entertain hopes of having organized squads in the near future.

The call for freshman baseball candidates brought out some 25 applicants. Only a few practices have been held, however, and Coach Weber has not made any cut in the squad. There seems to be some promising material which may be developed next year into varsity calibre, nevertheless, notahly among the battery men.

No outstanding stars have been noticed so far on the track squad. This has had the advantage of more practices than the other sports, and the runners have been able to warm up almost daily. The field men have been somewhat restricted by the weather, but they show promise in the weight-throwing and discus events.

Several meets have been arranged for the yearlings. There will be a telegraph meet with Oberlin on May 9-13, when each man will run against time and the results will be compared by wire. There will also be a handicap meet with the varsity, and a meet with Coach Winters' Also Ran Association, in addition to the regular interclass and interfraternity meets.

Approximately 12 men answered Coach Gelas' call for tennis candidates. No organized practices have been held at all so far, but as soon as the weather clears up and the condition of the courts improves, a team will be picked.

HARRY D. YATES APPOINTED AIDE TO COMPTROLLER

Alumnus Becomes Tremaine's First Deputy, Succeeding Late G. B. Lansing

Appointment of Harry D. Yates, '25, assistant secretary of the M & T Trust Company and son of Harry Yates, prominent Buffalo financier, to be first deputy state comptroller at a salary of $7,500, was announced recently by George J. Zimmermann, Erie County Democratic chairman, in behalf of State Comptroller Morris S. Tremaine of Buffalo, who made the appointment.

Mr. Yates' appointment fills the vacancy in this high state office created by the sudden death March 12th of Gerrit B. Lansing of Buffalo, who had served at Comptroller Tremane's right hand since the outset of Mr. Tremaine's incumbency in 1927. Mr. Yates will assume his official duties at Albany immediately, it was said.

Agreement upon Mr. Yates for the place of first deputy of the state department of audit and control ended a quest of weeks in which Chairman Zimmermann took the initiative at the request of Comptroller Tremaine. The office is one entailing joint responsibility with the comptroller in the superintendency of the fiscal affairs of the state, auditing of accounts, drawing of warrants and many other functions, and the task of finding the type of man desired did not prove an easy one.

To Assume Duties at Once

"I am happy to announce that Harry D. Yates today has embraced the party's tender of appointment to the office of first deputy state comptroller and will take up the work at once," said Chairman Zimmermann. "The party's gratification at obtaining his services for the state is matched by Mr. Yates's appreciation of the opportunity it will afford him to serve the state."

The appointee comes of a long line of Erie County Democrats, and his designation serves to project into state service another scion of a distinguished Buffalo family. In a brief statement yesterday, Mr. Yates expressed his pleasure at the appointment and said he would dedicate himself to equaling the record of service set by his predecessor.

Comptroller Tremaine was not in the city yesterday, but he was said to be well pleased over the decision of Mr. Yates to acceut the offer of designation.

Mr. Yates, who has been associated with the M & T Trust Company since 1925, served in the discount department, the business extension department and at the Grant-Boyd branch of the bank prior to becoming a member of the credit department, where he was located at the time of his appointment. He received the degree of bachelor of science from Hamilton College in 1925 and had his early training at Nichols School and at the Franklin School. At Hamilton he was a member of the football and hockey teams and of Sigma Phi fraternity and Pentagon.

His father, who has been active in banking, railroad affairs and the coal and iron industries in Buffalo, has taken a leading part in the affairs of the Democratic party locally and nationally.

Active in Civic Affairs

Harry D. Yates has taken an active part in civic and charitable affairs of the city. He is a member of the Buffalo Club, East Aurora Country Club, Automobile Club, Greater Buffalo Advertising Club and the Chamber of Commerce and is a major in the Joint Charities and Community Fund drive about to be undertaken.

He is unmarried and makes his home with his parents at 1243 Delaware Avenue.

Yale Gym Head Foresees Lean Years for Football

NEW HAVEN, Conn.—Dr. William G. Anderson, director of the Yale gymnasium, foresees the decline of football and the growth of the so-called minor sports to the point where they become self-supporting.

Football's popularity, in his opinion, has reached its peak and a gradual decline in public interest may be expected.

"Football," he says, "has had its seven fat years and usually seven lean years follow, you know. Like the Greeks and the Romans, the public likes spectacles. That's why football has grown so popular."

CAST ANNOUNCED FOR "HAMLET"

Dramatic Interpretation Class Will Produce Drama May 16 and 17

The class in Dramatic Interpretation, directed by Professor Paul A. Fancher, is now planning its second public performance of the year, a presentation of "Hamlet", which will be given in the Hall of Commons on the evening of May 16 and 17. One of the most ambitious undertakings it has attempted in several years, the class is preparing to stage "Hamlet" in a manner worthy of the play. The following is the cast:

Claudius, King of Denmark — Michael Timko
Hamlet, Prince of Denmark — Robert Brownlee
Polonius, Lord Chamberlain — Allen Henderson
Horatio, Friend to Hamlet — Robert Fay
Laertes, Son of Polonius — Jerome Fisher
Osric, a Courtier .. Robert Hicks
A Gentleman ..... Charles Hyde
Marcellus, an Officer, Henry Work
A Priest ..... Henry Work

The Players

1. Prologue ... Robert Ashmead
2. A King ..... John Poppe
3. A Queen ..... J. H. Jones
4. Lucianus ..... Henry Work

First Gravedigger — Chauncey Cowles
Second Gravedigger — Clarence Vosburgh
Fortinbras, Prince of Norway — John Poppe
English Ambassador — Robert Ashmead
Gertrude, Queen of Denmark — Robert Phelps
Ophelia, Daughter of Polonius — William Roehrick
Ghost of Hamlet's Father — Philip Schleit

Four Officers

Allen Henderson, Philip Schleit, John Behr, James Heyl

Special scenery and lighting effects are being arranged. Costumes will be furnished by the Hooker-Howe Company of Haverhill, Massachusetts, which has costumed several productions for the Utica Players. On May 16, "Hamlet" will be played for the undergraduates and their guests, on May 17, for the faculty and others. The play is being keenly antcipated by everyone in the vicinity interested ni the drama.

Code of Hamilton Defined

Formal White House procedure of the new year varies no whit from that of a long train of its predecessors. It was Alexander Hamilton, "greatest Secretary of the Treasury before Andrew W. Mellon," who put his imprimatur on what Presidents should or should not do. A State Department functionary of today is the arbiter, it is true, of social usage. But back in 1789 it never would have done to let the sturdy and democratic Secretary of State, Thomas Jefferson, put his finger in the social pie.

Hamilton's code, as drawn up, determined that the President was to pay no visits. He was to receive on Thursday afternoons in alternate weeks. Foreign Ambassadors and strangers were to be received on no other occasions. On Thursday he was to give a dinner, the guest list being made up from official groups and strangers of distinction. Mrs. Washington was to receive on Friday evenings from 8 until 10. With the exception of the fixed date for receiving and entertaining this program is substantially in vogue. The Executive Mansion of those days was, of course, in New York, the first capital, and was known as the Franklin Mansion. The house which was situated near where the Manhattan piers of the Brooklyn Bridge now rest, early proved to be too small and another hause was taken on the site of what is now 39 Broadway. At the conclusion of a meal the Immortal George always raised his wine glass in a toast, the pledging of which was a signal for the ladies to withdraw to the drawing room.

Have you thought of making DENTISTRY YOUR LIFE WORK?

The Harvard University Dental School offers an unsurpassed course in this field of health service, with emphasis on medical correlations. A "Class A" school. *Write for catalog.*

CARPE DIEM

And there was—

The absent-minded professor who wore his knickers to Chapel on the day of the Trustees meeting.

The Trustee, who according to College rule, parked his car behind or in front of Carnegie.

The student body that waited for the Trustees before leaving Chapel of an April morning.

The sargeant-at-trms at the door to keep the canine members of the student body from attending Chapel as usual.

Th absent-mindèd professor who forgot to come to Chapel on the morning of the Trustees meeting.

The famous campus rake(r) who waited until the morning of the Trustees meeting to clean up the campus.

And---The day when Chapel began at 8:05 as usual on the day that the Trustees met.

EXAMINATION SCHEDULE

Following is the examination schedule approved by the Faculty at its meeting yesterday afternoon. All a. m. examinations are at 8:30 and p. m. at 1:30:

Intra-Mural Play Gets Under Way in Softball Leagues

While the neutrals were opening the spring intra-mural season by beating the Tekes 10-9 in a last inning rally, the sophomores handed the juniors a 33-12 lacing and the freshmen beat the seniors 6-3 in interclass softball. The other games in the interfraternity leagues were postponed and will probably be played off tomorrow.

The game between the Tekes and the Neutrals was an airtight game with the teams being tied at 3-3 until the ninth inning. In their half the Tekes scored six runs and seemed to have the game cinched. However, with two out the Neutrals scored seven runs, Kravetz helping to win his own game by knockng three runs in with a triple. The pitchers were Grant for the Tekes and Kravetz for the Neutrals.

The sophomores and the seniors took part in a slugfest with the sophomores on the long end of the 33-12 score. The sophomores scored nine runs in the first inning and were never headed throughout. Gummerson and G. H. Lewis were the battery for the sophomores, while Chauncey Cowles pitched for the juniors and Keeler and Wilson caught.

In the senior-freshman game the seniors scored first with three runs on a home run by Baldwin in the third. The frosh retaliated with four runs in their half of the inning largely on account of a triple by Osterhout. Both sides were blanked until the last inning when the freshmen added two more runs for good measure.

The games that were postponed on Saturday were: Sigma Phi vs. Delta Upsilon, Alpha Delta Phi vs. Theta Delta Chi, Psi Upsilon vs. the Dekes, Chi Psi vs. E.L.S., and Chi Beta Sigma vs. Lambda Chi Alpha.

Tomorrow the seniors will play the sophomores and the juniors the freshmen in soft ball. The freshmen will also get a chance to show their prowess in track when they meet the varsity in the annual handicap meet.

BASEBALL TEAM DROPS OPENING GAMES IN EAST

(Continued from Page One)

fielding, kept the Buff and Blue on the short end of the score throughout. Warner was the only man to get two hits for either team, and one of these was a double.

A hard, fast infield and a bumpy outfield played no small share in accounting for the 13 errors made against Wesleyan Saturday afternoon. Ideal weather conditions did not in any way help to make the loosely played game at all interesting.

After the Cardinals tallied five times in the third to increase their lead to 7-1, the Buff and Blue was helpless. Wesleyan added another four runs in the fourth frame, and after getting only one in the fifth came back to score ten in the sixth. The game was called after the first half of the seventh.

In spite of the one-sided score and Hamilton's sloppy work in the field, it was Ollikainen and Scarpitto who provided the sparkling plays in the game. The Hamilton shortstop once went out to left center and caught a fly which seemed to be a perfect hit, while the second-sacker made a brilliant dive into the dirt for an apparently impossible catch.

THE CALENDAR

Wednesday, May 4
Interclass playground ball games: Juniors vs. freshmen and sophomores vs. seniors.
Baseball game with Postal Telegraph Company at 4:30.
D.T. Banquet at Harding's.

Thursday, May 5
Choir rehearsal at 7:45.

Friday, May 6
Tennis meet with Syracuse at Clinton.
Field trips in Geology 4 and Geology 10.

Saturday, May 7
Track meet with Rochester at Rochester.
Baseball game with Rochester at Rochester.

Sunday, May 8
Chapel preacher the Rev. Carroll Perry of Ipswich, Mass.

Monday, May 9
Interclass playground ball games: Sophomores vs. freshmen; juniors vs. seniors.

Tuesday, May 10
Baseball game with St. Lawrence at Clinton.

BUFF AND BLUE OPENS OUTDOOR TRACK SEASON

(Continued from Page One)

to the last turn, captured first and third in the half mile. Smith held too great a lead for Olszewski's final sprint to overcome, although Denman ended well in the lead with the time of 2:06.1, which is his best to date.

Stewart also turned in his best performance on the track when he took a second to Kozma in the 120-yard high hurdles. His time of 16.8 was a full second better than he has made before. In the low hurdles Kozma surprised by beating Bellatty, the Conference champion, to the tape. Conklin, who had never before run the race, finished third.

R.P.I. got two places in both the javelin and discus, Eames winning the former while Ayers got a third in the other. Creagh and Kingsley added to the Buff and Blue total in the other field events, Creagh getting a first in the high jump and a tie for second in the broad jump, while Kingsley copped the pole vault at 11 feet and was in a triple tie for second in the high jump.

The summary:

Hamilton—70 1-3; R.P.I.—60 2-3.

Shot put—Won by Panzarella, R.P.I.; Second: Jones, H.; third: Sturgess, R.P.I. Distance—45 ft., 1¼ in.

Mile run—Won by Pritchard, H.; second: Campbell, H.; third: Idema, R.P.I. Time—4:41.8.

440-yard dash—Won by Sprague, H.; second: Billard, R.P.I.; third: Bellatty, H. Time—53.2.

100-yard dash—Won by Ruland, H.; second: Perlenfein, R.P.I.; third: Konaly, R.P.I. Time—10.4.

120-yard high hurdles—Won by Kozma, R.P.I.; second: Stewart, H.; third: Burdick, R.P.I. Time—16.4.

880-yard run—Won by Denman, H.; second: Smith, R.P.I.; third: Olszewski, H. Time—2:06.1.

Javelin throw—Won by Eames, H.; second: Burdick, R.P.I.; third: Unger, R.P.I. Distance—146 ft., 3½ in.

220-yard dash—Won by Billard, R.P.I.; second: Ruland, H.; third: Perlenfein, R.P.I. Time—23.

Discus throw—Won by Panzarella, R.P.I.; second: Sturgess, R.P.I.; third: Ayers, H. Distance—125 ft.

Two-mile run—Won by Pritchard, H.; second: Bliss, H.; third: Bates, R.P.I. Time—10:17.9.

220-yard low hurdles—Won by Kozma, R.P.I.; second: Bellatty, H.; third: Conklin, H. Time—27.7.

High jump—Won by Creagh, H.; tied for second: Kingsley, H.; Collins, R.P.I.; and Highman, R.P.I. Height—5 ft. 4¾ in.

Pole vault—Won by Kingsley, H.; second, Suor, R.P.I.; third: Seipel, R.P.I. Height—11 ft.

Mile medley relay—Won by Hamilton (Sprague, Ruland, Bull, Campbell); second R.P.I. (Billard, Perlenfein, Konaly, Smith). Time—3:50.1.

Broad jump—Won by Parker, R.P.I.; tied for second: Collins, R.P.I., and Creagh, H. Distance—21 ft. 8 in.

German Club Continues Study of Goethe's Life

The German Club continued its year's project, the discussion of the life and works of Goethe, when it considered the genral topic, "Goethe and Natural Science" at its meeting last Friday evening at eight o'clock in the Theta Delta Chi House.

Goethe, in the universality of his genius, expressed many significant scentific conceptions in his works, as indicative of the spirit of medieval science. In attacking this topic, Robert G. Schwarz dwelt with the theory color; Edward Gross gave a paper on Goethe's studies in embryology, metamorphosis of plants, and anatomy; while Hallock C. Campbell spoke on geology as reflected in Goethe's works, presenting the opposed theories of the Vulcanists and the Neptunists.

The meeting closed with the singing of German songs, with Robert Hicks at the piano. The year's program will close with the next meeting to be held soon.

tinuous creation of the common elements out of positive and negative electrons." The same publication in August of that year carried another account of the findings of these two men in the cosmic ray field: "Evidence that the cosmic rays originate in interstellar space."

New Geology Instructor

As his assistant, Professor Cameron will have Stephen Waters Nile, replacing Mr. Donald J. Van

John J. Walsh, '32

Keuren, who is leaving to do graduate work at Princeton. Dr. Nile received his Bachelor of Arts degree at Reed College, Oregon, in 1927, and has taught physics and mathematics at New York University, which institution conferred upon him a Ph.D. degree last year for his study of new features of the red band system of sodium. During the past two years he has been working with Dr. G. Breit of New York University on the application of the new quantum mechanics.

John Thomas Rouse, a candidate for the Ph.D. degree at Princeton this June, is to be instructor in Geology at Hamilton next year, taking the place of Mr. Donovan R. Meredith. Mr. Rouse holds M.A. and A.B. degrees from the University of Cincinnati, and at present is a teaching fellow at Prnceton.

Walsh Receives Appointment

Rolf Egmont Percival King, who has been a member of the German department at the University of Wisconsin since 1928, will be instructor in German. He received his Master of Arts degree from the University of Rochester, and is a candidate for a Ph.D. degree at the University of Wisconsin this June. Mr. King, who will replace Mr. Jean Wunderlich in the German department, was on the faculty at the University of Rochester from 1926 to 1928.

John J. Walsh will be an assistant instructor in public speaking here while doing graduate work next year, taking the place of Mr. Mneka. Walsh is president of the Charlatans and the Debate squad, and is a member of Delta Sigma Rho and the Emerson Literary Society.

Donations Accepted

The Root Fellowship in Science, which finances a year of graduate study for some member of the senior class "who has proved himself of a high order of scholarly attainment and has shown marked ability and special aptitude for research in one or more of the departments of science," has been awarded to Hallock C. Campbell, '32. Campbell was captain of cross country, is a letter-man in track, and a member of Phi Beta Kappa and Theta Delta Chi.

Three valuable collections, the gift of Dr. Benjamin W. Arnold, '86, will be placed in the Geology-Biology Building. They include 221 rare echinoderms, a collection of Alexandrian coins, and a small archaeological image.

Robert D. Fraser of New Hartford was announced as the donor of files containing messages of the governors of New York State from 1693-1906, in addition to files of Hamilton Life and the "Hamilton Literary Magazine."

The Board of Trustees appropriated $125 which was duplicated with the same amount from an individual source, to secure the exhibits of the College Art Association for another year.

TRACK TEAM OPPOSES ROCHESTER SECOND TIME

(Continued from Page One)

The winners for Hamilton were Captain Walt Pritchard, placing first both in the mile and two mile events; Ruland in the 220; Bellatty in the quarter; Denman in the half mile; Jones in the shot put; Kingsley and Creagh tying for first in the high jump. Kingsley also placed first in the pole vault. It was in this meet that Captain Pritchard lowered the indoor track records at Rochester in both of his distance events.

With the addition of Ralph Martin and Bill Conklin to the squad, the team has been strengthened materially. Martin runs in the high hurdles, while Conklin specializes in the low hurdles and hundred yard dash. It is expected that the Buff and Blue will make a better showing this Saturday in the hurdles events with this additional material.

In the indoor meet with Rochester, Jones and Estabrook placed first and second respectively in the shot put, Jones winning with a heave of 39 feet eight and one-half inches. Since that time Jones has broken the Hamilton record, having placed second with a throw of 42 feet eight and one-fourth inches in the R.P.I. meet. This bettered his own previous record by more than a foot. Creagh placed second in the high jump in the meet against Rochester, but showed a great improvement by taking the event against R.P.I. with a leap of five feet four and three-fourths inches.

Because of the early season victory over Rochester, and of Saturday's unexpected triumph over R.P.I., the Buff and Blue is conceded a wide margin over Rochester in the coming meet on Saturday, May 6.

New "Gaboon" Staff Chosen

Howard C. Hosmer, '33, editor-in-chief of Hamilton Life and of the "1933 Hamiltonian", was elected editor-in-chief of the "Royal Gaboon", Hamilton's humorous magazine, at a meeting of the board held after Chapel today.

Other elections were those of Elmore C. McKechnie, '33, to the post of business manager, John C. Homans, '34, art editor, and Seth C. Craig, Jr., and Robert S. Snyder, both '35, assistant business managers.

One more edition of the "Gaboon" will appear this year, at Commencement time. The editors are already working on this issue and promise that it will be of a startling nature. They solicit contributions from anybody, asking that they be turned in by May 15.

DO YOU INHALE?

Why is this vital question so much avoided by other cigarettes?

EVER since Lucky Strike created that special process for purifying fine tobacco and told the full facts about cigarette smoking—*the industry has been in an uproar.* For Lucky Strike has dared to mention things that were considered "taboo" in the cigarette trade.

You may have noticed a striking avoidance generally of the word "inhale" in cigarette advertising. Why? Goodness only knows! For everybody inhales—knowingly or unknowingly! *Every* smoker breathes in some part of the smoke he or she draws out of a cigarette. That's why it's all-important to be certain that your cigarette smoke is pure and clean—to be sure you don't *inhale* certain impurities.

Do you inhale? Lucky Strike *has dared* to raise this vital question—for it gives you the protection you want . . . because certain impurities concealed in even the finest, mildest tobacco leaves are removed by Luckies' famous purifying process. Luckies created that process. Only Luckies have it!

"It's toasted"
Your Throat Protection against irritation—against cough
